

Noise Theory and Practice

has been published since 2015.
The founder of the journal
is Nikolay Igorevich Ivanov,
Doctor of Engineering Sciences,
Professor of the Department of
Environmental Engineering and
Computational Mechanics
of the Baltic State Technical
University 'VOENMEH'
named after D. F. Ustinov, the
founder of the transport acoustics
in Russia.

Noise Theory and Practice
is devoted to the fundamental
problems in the field of
vibroacoustics and accepts papers
in the following areas:
- 29.00.00 Physics
- 29.37.00 Acoustics
- 43.00.00 General and complex
issues of natural and exact sciences
- 87.00.00 Environmental protection.
Human ecology.

All articles submitted to the
editorial office are subject
to mandatory review. The journal
is an open network resource
and published four times a year.

Noise Theory and Practice Editorial office

138, Bldg.7A, Obvodny Canal Emb.,
Room 11-H, Office 2-2A
St. Petersburg, 190020, Russia

Executive Secretary

Anna Lubyanchenko

Journal is registered in Federal
service for supervision of
communications, information
technology, and mass media

The certificate of registration

ЭЛ № ФС 77-74057

Contents

Asminin V.F., Samofalova A.S. RUS

Modeling of vibroacoustic energy dissipation in a discrete local
vibration damper with a movable ball
pp. 7-21

Kulikov A.S., Vasileva A.V. RUS

Optimization of the acoustic parameters of the assembly hall
to improve the occupational safety of teachers
pp. 22-28

Artemenko D.E. RUS

Review of physical models of viscoelastic dampers and
prospects for the application of Artificial Intelligence in their
design
pp. 29-46

Stuzhenko N.I. RUS

Study of the spectral composition of noise from diamond
boring equipment under operating conditions
pp. 47-54

Urazgaliev R.T., Kaverzneva T.T., Salkutsan V.I. RUS

Evaluation of the feasibility of computer modeling of
low-frequency noise fields in industrial premises
pp. 55-67

Alsaeed. H. K., Pivnev. P.P. RUS

Expansion of the operating band of a transducer-type Tonpilz
pp. 68-81

Ледовской Р.А., Колбин М.Д., Бегдай И.В. RUS

Verified model of acoustic performance of architectural
configurations in urban development for a smart city
pp. 82-94
